

I am in support of NJ's Do Not Call program, and have signed up for it a few months ago. It is nice to not have my private time at home interrupted with unsolicited and unwanted phone calls from telemarketers who sometimes border on harrassment in pushing their products. My private time is precious, and don't feel that telemarketers have any right to intrude on it. They can solicit their business through the US mail, and I can respond at my leisure if I want to.

Please do not impose any restrictions on NJ's Do Not Call program, and allow it to remain in place, as is, with no changes.

Thank you for your time.

Judy Rush
